

PRESS RELEASE for LIGHTING CONTROL LTD.

Release: 7/2/2018

Welcome Kevin Mccarthy to the Lighting Controls sales team!

Lighting Controls is proud to introduce the newest addition to its sales force, Kevin McCarthy. Kevin is Certified with the Lighting Industry federation and a Chartered Institution of Building Services Engineers lighting designer. Kevin brings with him a wealth of experience working in the specification of lighting control systems and working with M & E Consultants, Lighting Designers, Housing Developers, and D & B Contractors. He combines in depth product knowledge with practical lighting design experience in order to provide the optimum client solution.

Kevin has also spent several years specifically promoting DALI lighting control systems and so is a perfect fit for Lighting Controls Ltd's products and markets.

When not assisting clients with their lighting needs Kevin is a keen wild life photographer and fisherman, and, as a former drummer in several bands, he maintains an innate love of music!
