

## ecoFLEX 5 Pole Armoured Lighting Tee

The **ecoFLEX** Armoured Lighting Tee is designed to provide a power and data in and out facility enabling lighting control modules, light fittings and other equipment to be connected in series. The flying tee would be fitted to our LCM, or to a third party luminaire light fitting manufacturer for assembling to their equipment off site. Our company provides a unique ability to be able to supply both controls and modular wiring.

Armoured Lighting Tees can be supplied either with 3 or 4 core LSOH flexible cable or flexible metal conduit containing 3 or 4 core LSOH cables. An integral bus version is available as a 3 core system plus 2 poles for the bus.

The unit is connected via Interlink leads. For more information see data sheets for 5 pole Lighting Interlink Leads.

### Part Numbers:

IS-AWFT532300CUBS for a 300mm drop  
IS-AWFT532500CUBS for a 500mm drop
